## Islamic Community Center Update

7-17-2020

### Site Work Is Near Completion

ISCNY President is with Joseph Mueller, Construction Manager for JK Tobin Construction Company. Joe has overseen our site development from the beginning to end. Their work is nearing completion, clearing 15 acres, preparing the necessary parts to begin building the Islamic Community Center.

We provided weekly updates to walk you through each step in the building process. So that you can see the fruit of your efforts; planning, donations, dua. Although this site work is a big part of the project, there is more work ahead of us. The first phase of the Islamic Community Center building is next. This means we have to continue our efforts; planning, donations, dua.

This project will serve our growing community now and has enough land for future development. Our Islamic community is vibrant and generational. It would be a mistake to just plan for now and not consider the future. Let us move forward with hope that Allah will reward us for our good, and fear that He will punish us for our shortcomings.

We will do our best to keep you updated weekly with the progress of the Islamic Community Center

# I'm Beginning To See The Islamic Community Center

The ISCNY logo on the bottom right of each page is interactive and will take you to the ISCNY web page where you can make a secure donation.
