Islamic Community Center Update

5-1-2020

Driveway to the Islamic Community Center

The photo on the top is the beginning of the driveway to the Islamic Community Center. It's really rough right now, but it will look like the photo at the bottom of the page when finished.

At this stage in the project you need to look beyond the rocks and dirt, but see what it will turn into when completed. We want to keep you posted so you can follow the project as it progresses through each stage. This is a fairly large undertaking and we want you to follow it's progress.

We will do our best to keep you updated weekly with the progress of the Islamic Community Center

How Did We Get Here?

It's taken a whole lot of meetings!

Community members on the Islamic Community Center committee spent many hours meeting, arduously planning each stage of the work, including fundraising and events to keep you updated. Consultation is the key to successfully developing the points along the way.

Not just working with each other, but including professionals on our team. Professionals that assess the practicality of our project, which brings clarity to achieving our goals. Getting input and feedback from our community so it meets our needs. This is a multi-faceted event that takes time to jell. As you can see it is coming together, insh'llah.

The ISCNY logo at the bottom of the page will take you to the ISCNY web page where you can make a secure donation.
