ISCNY Community Center—A Center of Excellence In Education

The one and only goal of our community center is to serve our community. A central component of the services will be education. Enlightening ourselves through the wisdom of the Quran and our Prophet's—peace be upon him, sunnah is what we all crave for.

Thus, we want the place to be a center of excellence in providing education. This is particularly important for our children. Every Muslim child deserves an opportunity to learn, and it is our responsibility to create an environment in which our kids flourish. The design of the new center (both indoor and outdoor) aims to accommodate this need in the best possible way. We want the center to be a place where our kids acquire a firm understanding of the beauty of our Deen and enlighten themselves through the

wisdom and beauty of Islam. We want them to feel that they are valued, loved, and cared for by our community. We want the center to be a place where our kids get to know each other, support each other, and importantly, feel at home.

To achieve this goal of education, the design of the new building includes several features. We hope the center will provide expanded education services. In subsequent issues, we will provide detailed information on the design of the facilities. The design is a work in progress. It is highly important that the design accommodates the community's needs. We inshallah, will have several forums to gather comments and suggestions by

community members. Stay tuned!

We will do our best to keep you updated weekly with the progress of the

It Is Beautiful When A Plan Comes Together!

The ISCNy Community Center is getting finishing touches on the driveway. The final paving will come later when the center building is near completion, so that the driveway is not ruined by the machinery for the build. The grass is growing nicely and may need to be cut before winter. The middle right photo shows the future sight of the outdoor soccer field—professional size. It is laid out on the Islamic Community Center Master Plan, below the photo.
