## ISCNY Community Center Update

10-9-2020

### Site Management Team

This is the site work team. The President, Landscape Architect from Keplinger Freeman Associates, Construction Manager from JK Tobin Construction Co and Islamic Community Center committee members.

Oversight and consultation is key in any construction project, so the committee is directly engaged in managing this project for success.

The site work team has done an amazing job. Turned 15 densely wooded acres into a cleared, graded area that is just waiting for the center to commence building. Now is the time to make your presence felt with a generous donation. Click the ISCNY logo on the bottom right of either page. It will take you to the ISCNY web page where you can make a secure donation.

We will do our best to keep you updated weekly with the progress of the  
ISCNY Community Center

# Mash'Allah

# Insh'Allah

The ISCNY logo on the bottom right of each page is interactive and will take you to the ISCNY web page where you can make a secure donation.
