Architect's ISCNY Community Center Conceptual Interior Layout & Design

The focus is turning to the building and its' interior design. Now that the site work in preparation for the ISCNY Community Center is 98% complete the focus is on the building and its' interior. Above is an architects sketch of a possible interior layout. The ICC committee gave him the information gathered from our ICC Informational Meetings held at ISCNY of your ideas. These are the first of a series of drawings from architects, that when finalized at a future meeting will be in the center.

It is an exciting process at every turn in the project, and the committee looks for your input and even critique, so that we can have the best design that realizes our goal. And that is to bring needed services to our growing community, especially for our youth, students and aging population.

We will do our best to keep you updated weekly with the progress of the
ISCNY Community Center

Which One? You Choose

Our youth are vibrant and have lots of energy. When it is time to learn, they excel and when it time to play, they need space. The ISCNy Community Center will be that space for them to do both, learn and play.

Abu

Hurayra said, "The Messenger of Allah, may Allah bless him and grant him peace, said, 'There are seven whom Allah will shade in His shade on the day on which there is no shade except His shade: a just imam, a youth who grows up worshipping Allah, a man whose heart is attached to the mosque when he leaves it until he returns to it, two men who love each other in Allah and meet for that and part for that, a man who remembers Allah when he is alone and his eyes overflow with tears, a man who refuses the approaches of a noble, beautiful woman, saying "I fear Allah," and a man who gives sadaqa and conceals it so that his left hand does not know what his right hand gives.' " – *al-Muwatta*
