ISCNY Community Center Update

3-11-2021

You Scored A Goal!

Construction has started on the outdoor soccer field and basketball court

It is located north and east of the ISCNY Community Center. Right now the construction company is hard at work moving a lot of dirt and rocks to clear the ground for our own fields to be enjoyed by our community. It looks like it will be ready in a few months, so get ready. Get your teams together. And for some of us that means getting in shape after a long year of inactivity.

Your continued effort and support is bearing fruit, *al-Hamdul'llah*. It is amazing to see a vision take physical

shape. Soccer and basketball can be enjoyed by boys and girls and we can host their games. Sports is fundamental to youth's physical development religious value training.

We will do our best to keep you updated weekly with the progress of the
ISCNY Community Center
